To Whomsoever It May Concern

I am submitting a proposal titled **“Patient specific, personalized, lightweight, leakproof breast implants for mastectomy patients using novel internal architecture for properties comparable to natural breast tissue or best in class products”** approved for funding under BIRAC’s BIG scheme which supports proof-of-concept for novel technologies. In this project, I want to request your support and participation as honorary advisor.

As honorary advisor, I would like to request your broad guidance and inputs on clinical aspects. For this purpose, we can interact periodically over phone or Skype or if possible, in person.

If agreeable to you, I would like to request you to confirm that you agreeing for the above

Signature

(Vikas Garg)

I agree to be the clinical advisor for the project mentioned above.
